

Tactical Assault Aircraft Cable Ladders

Our Tactical Assault Aircraft Cable Ladders were designed in conjunction with special forces operators. They are constructed from durable stainless aircraft cable and anodized alloy ladder rungs making them resistant to corrosion from salt water spray and immersion. Built in safety factors allow the rung to yield prior to cable failure. Highly durable ladders are easily rolled and stowed. Available in 50', 35', and 15' lengths. Custom lengths also available.

Tactical Assault Cable Ladder Specifications

Tactical Assault Cable Ladder 50' (15.2m), PN# 4851-50

Characteristic	Alloy Caving Ladder
Length	50 feet
Width	6 inches
Rung Spacing	12 Inches
Weight	8.2 lbs
Ladder Rung Material	Aircraft Grade Aluminum
Rung Connectors	Stainless Steel
Top Loop	Single or double with ss eyelet
Cable Material	1/8" 304 Stainless Steel
Cable Strength	2600 lbs rated strength
	1250 lbs yield
Rung Strength	2200 lbs failure
Stowed Configuration	Rolled
Materials	Stainless Steel and Anodized Aluminum

**Tactical Assault Cable Ladder 35' (10.7m), PN# 4851-35
NSN: 4240016988583**

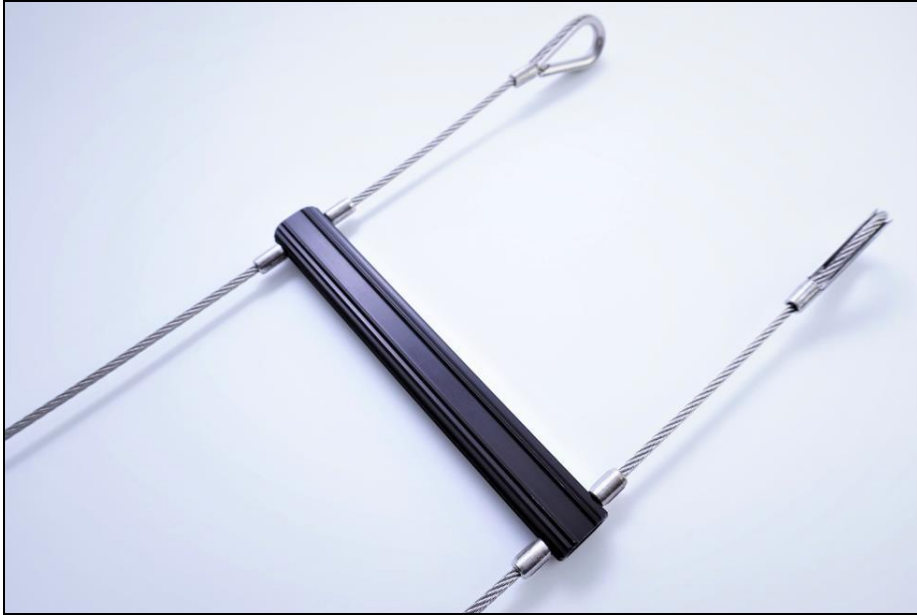

Characteristic	Alloy Caving Ladder
Length	35 feet
Width	6 inches
Rung Spacing	12 Inches
Weight	5.6 lbs
Ladder Rung Material	Aircraft Grade Aluminum
Rung Connectors	Stainless Steel
Top Loop	Single or double with ss eyelet
Cable Material	1/8" 304 Stainless Steel
Cable Strength	2600 lbs rated strength
	1250 lbs yield
Rung Strength	2200 lbs failure
Stowed Configuration	Rolled
Materials	Stainless Steel and Anodized Aluminum

Tactical Assault Cable Ladder 15' (4.6m), PN# 4851-15

Characteristic	Alloy Caving Ladder
Length	15 feet
Width	6 inches
Rung Spacing	12 Inches
Weight	2.5 lbs
Ladder Rung Material	Aircraft Grade Aluminum
Rung Connectors	Stainless Steel
Top Loop	Single or double with ss eyelet
Cable Material	1/8" 304 Stainless Steel
Cable Strength	2600 lbs rated strength
	1250 lbs yield
Rung Strength	2200 lbs failure
Stowed Configuration	Rolled
Materials	Stainless Steel and Anodized Aluminum
