

MoG Target High Abrasion ErgoShield 8110 - Black

Our Target Shooting Glove Series have been developed together with several dedicated and heavy users within Special Forces during extensive training sessions in different environments.

Trigger guard reinforcements offering higher durability, dexterity and wearing comfort

Slim-fit finger construction stitched over the fingertips provides extreme high finger sensitivity for perfect weapon handling, operation of radio and delicate equipment

Conductive thread stitching on thumb, index and middle finger, for efficient operation of touchscreen devices

C-Grip construction improves durability and protects the index finger against burns during weapon handling, etc.

Palm of hand made of single layer 0.8mm synthetic leather with extreme abrasion resistance (8000+ cycles)

Reload thumb construction - reinforced thumb patch and specific design enable perfect mag reloading

Ergonomic and insensitive TPR patches, directly glued onto the back fabric for basic impact protection and extreme comfort

Mixed silicon print providing excellent grip on weapons, ropes, etc. but also on textiles, sweaty skin, ...

Back of hand is made of 4-way stretch, durable, breathable en quick drying fabric

Neoprene cuff offering outstanding free movement near the wrists and basic impact protection

High quality hook and loop closure, double stitched, avoids catching dust or sand

Reinforced patch on the heel provides extra strength against friction during operations

Reinforced opening serving both as solid pulltab and fixing point to belts or carabiners

Applications

- _ for weapon handling
- _ for allround tactical operations
- _ for searches
- _ for patrolling

Target groups

- _ armed forces
- _ special assistance units
- _ law enforcement
