

MoG

2ndSkin 8108B

cut resistant tactical glove with very snug fit for maximum dexterity and tactility during several operations

reinforcement of the crotch between index finger and thumb makes the glove more durable while handling (e.g. reloading)

soft padded knuckle area for basic impact protection

back of hand in spandex nylon for high comfort and breathability

short cuff with cut-out for watches increase wearing comfort

loop (on the inside) for easy fixing on a belt or uniform

U-shaped fingers providing ultra dexterity and finger sensitivity

special seamless design of index finger for extreme precision (e.g. during frisking, ...)

conductive leather on the index and thumb to operate touch screen devices

liquid repellent leather prevents infiltration of liquids into the glove

heat resistant and flame-retardant lining prevents burns in case the loop of the weapon is retained

cut resistant lining for secure protection against assaults or cuts

Applications

- _ for manipulating weapons,
- _ for frisking practices,
- _ for easy operation of communication devices

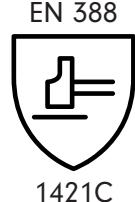

Target groups

- _ Police
- _ Special units
- _ Security
- _ Customs
- _ Defense
