

MoG Target Light Duty 8111 - Black

Our Target Shooting Glove Series has been developed together with several dedicated and heavy users within Special Forces during extensive training sessions in different environments.

Trigger guard reinforcements offering higher durability, dexterity and wearing comfort

Slim-fit finger construction stitched over the fingertips provides extreme high finger sensitivity for perfect weapon handling, operation of radio and delicate equipment

Conductive patches on thumb and index finger for efficient operation of touchscreen devices

C-Grip construction improves durability and protects the index finger against burns during weapon handling

2 flexjoints at the index finger for maximum flexibility during weapon handling

Reload thumb construction - specific design enables perfect mag reloading

Back of hand is made of 4-way stretch, durable, breathable and quick drying fabric

Open cuff enabling quick, easy and noiseless pull on. Fits very well at the wrist so that it has maximum freedom of movement at all times

Reinforced patch on the heel provides extra strength against friction during operations

Palm of hand made of **DexSuede** - 0.6mm synthetic suede combining high dexterity and extremely high finger sensitivity

Mixed silicon print providing excellent grip on weapons, ropes, etc. but also on textiles, sweaty skin, ...

TPR pulltab and loop serving as a fixing point to belts or carabiners
